

Views From the E-List Software for Aquatic Illustrations*

Query:

Could someone recommend a computer program with printable illustrations of basic aquatic moves used in Rehab & classes?

Responses:

VHI has an aquatic software program that is pretty good. www.vhikitis.com

This is not exactly what you have requested but take a look at the website and you may find it meets your need better than your exact request.

<http://www.WaterWellnessWorkouts.com>

Ruth Sova's *BackHab* has a list and illustrations of exercises www.aqua-gear.com and Craig Stuart of Hydrofit has a whole library of illustrated aquatic exercises that you can use with or without equipment. Check out www.hydrofit.com.

PhysioTools
